ideal

building systems ltd

Ideal Building Systems Ltd have been in operation since 1992, establishing a strong track record in manufacturing high quality modular buildings. Our expertise spans across various sectors, including education, healthcare, commercial, retail, and numerous other areas. Throughout our extensive experience, we have successfully served both public and private sectors, delivering exceptional results and earning a reputation for excellence.

We can work both as a principal contractor, building directly for our clients or as a sub-contractor for larger traditional main contractor companies. We believe this flexibility ensures our clients can achieve the right route to market for their specific project.

At present, we proudly hold a multitude of esteemed ISO Accreditations that underscore our commitment to excellence. These include ISO 9001 for Quality Management, ISO 14001 for Environmental Management, ISO 19650 for Building Information Modelling (BIM), and ISO 45001 for Health and Safety.

In addition to these ISO Accreditations, we possess a Constructionline Gold membership, further highlighting our dedication to industry best practices. Moreover, we have obtained accreditations from Firas and Cyber Essentials, solidifying our standing as a trusted and reliable organisation.

If you require additional information or have any project-related inquiries, please get in touch, we look forward to hearing from you.

"I would just like to say that it has been a pleasure working with you, you have made the process so much easier than some of your competitors. Hopefully there will be more opportunities in the future for us to work together."

Senior Quantity Surveyor, Walter Thompson

"We were all extremely impressed with both the quality of the modular build and the progress that was made on site."

It was refreshing to see how well resourced and efficiently the building was managed and that you were also awarded the contractors health and safety award for July."

Senior design Manager, Willmott Dixon

FROM THE BOARDROOM

The latest news from the Ideal Building Systems Stadium

I would like to extend a warm welcome to all the officials, staff, players and traveling supporters of this afternoon's opponents, Wythenshawe Town FC, and Monday's opponents, Alsager Town FC, we hope you all enjoy your visit to the Nomads.

Wow, it seems like only a few weeks ago we were planning preseason friendlies, and here we are, already three league games in.

Today's game is a break from league action, as we play our old friends and neighbours in the FA Vase.

The Vase is the highest competition the club can enter, as the FA do not allow Step 6 clubs to enter the prestigious FA Cup.

We have had many a good battle over the years with Wythenshawe Town, and let's hope today's game is played in the right spirit, and enjoyable for both sets of fans.

It is always difficult to progress in this competition with so many higher placed teams involved, however, I'm sure that the lads will give their all, and come out with a favourable result.

Our league form has been a little patchy with two draws and a defeat thus far, Monday night gives us an opportunity to get that first win and, hopefully, set us on a run of decent form.

Both the Reserves and the U18s have yet to embark on their season, but are working their way through friendly games, in order to find the right blend for a favourable September start.

Off the pitch, the regular visitors will see a number of ground improvements in and around the place. As always, these have been carried out to enhance the spectators' experience, and give the whole place a better look.

We are still waiting on planning final planning permission, which will see us install another seated stand closer to the main dressing room and clubhouse block, again making all amenities easier to navigate on a match day.

Thank you all for your continued support and, whatever the result, please join us for a pint and a chat after the game.

All the best.

George

We provide products and solutions for your motion control, machinery & automation needs.

automating your world since 1985
